FABNA ASIYA UA

FullStack Developer

+91 984 760 8626 | fabnaasiya22@gmail.com | linkedin.com/in/fabna-asiya-ua| https://github.com/Fabna-Asiya-UA

Summary

Full-Stack Developer and Trainer with six months of experience as a Full Stack Trainer and six months of internship experience in Python Full Stack Development. Skilled in Python, Django, DRF, JavaScript, React, Node.js, Express.js, MongoDB, REST APIs, and JWT authentication. Experienced in developing web applications, mentoring students, and implementing real-world full-stack projects.

Technical Skills

Programming Languages: Python, JavaScript, C

Frontend: HTML5, CSS3, React (Vite), Bootstrap, Tailwind CSS

Backend: Django, Django REST Framework (DRF), Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MySQL, MongoDB, SQLite

Full-Stack Concepts: CRUD, REST APIs, Authentication, Authorization, MVC, Middleware, API Integration, Validation, Error Handling

Tools and Technologies: Git, GitHub, Postman, npm

Projects

StudyNest – MERN Stack Learning Platform Sept 2026

MongoDB, Express.js, React, Node.js

- Developed a full-stack learning platform with separate dashboards for students, teachers, and admins.
- Implemented JWT authentication, role-based access control, teacher-student connections, study materials, assignments, quizzes, and exams.
- Integrated AI assistance, personal notes, goals, revision plans, and file uploads for an enhanced learning experience.
- **Technologies Used:** MongoDB, Express.js, React (Vite), Node.js, JWT, Axios, Tailwind CSS, Cloudinary

Role-Based Task and Project Management System Jan 2026

Django REST Framework, React, JWT Authentication

- Developed a full-stack project and task management system with role-based access control for Admin, Manager, and Employee.
- Implemented JWT-based authentication, authorization, protected routes, and secure permission handling.
- Designed RESTful APIs for users, projects, and tasks and integrated them with a responsive React frontend using Axios.
- **Technologies Used:** Python, Django, Django REST Framework, JWT, React (Vite), JavaScript, Axios, SQLite

SocioSphere – Full Stack Social Media Web Application Nov 2025

Django, Django REST Framework, React

- Built a full-stack social media application with JWT authentication and protected routes.
- Implemented user profiles, follow system, search, posts, likes, comments, and RESTful APIs.
- Deployed the application with separate frontend and backend hosting.
- **Technologies Used:** Python, Django, Django REST Framework, JWT, React (Vite), Axios, Tailwind CSS

Experience

Full Stack Trainer April 2026 – Present
Softroniics *Palakkad, India*

- Conduct training sessions on Python, Django, Django REST Framework, JavaScript, React, Node.js, Express.js, MongoDB, HTML, CSS, Bootstrap, and Tailwind CSS.
- Guide students in developing responsive full-stack web applications using modern frontend and backend technologies.
- Teach RESTful API development, CRUD operations, JWT authentication, authorization, and frontend-backend integration.
- Mentor students in database concepts and application development using MySQL, SQLite, and MongoDB.
- Provide hands-on guidance in developing real-world projects using Django and MERN Stack technologies.
- Conduct debugging and code-review sessions to improve students' problem-solving skills and coding practices.
- Explain software development concepts including MVC architecture, middleware, validation, error handling, and API integration.
- Support students in implementing authentication, protected routes, role-based access control, search, filtering, and pagination.

Python Full Stack Intern June 2025 – December 2025
DataSpark Analytics *Calicut, India*

- Gained hands-on experience in full-stack web development using Python, Django, HTML, CSS, Bootstrap, and JavaScript.
- Developed responsive and dynamic web applications using Django and Bootstrap.
- Worked with Django models, views, templates, forms, and database integration.
- Developed and integrated RESTful APIs using Django REST Framework.
- Implemented CRUD operations and handled database interactions using SQLite and MySQL.
- Applied Python programming concepts including object-oriented programming, functions, collections, file handling, and exception handling.
- Used Git and GitHub for version control and project collaboration.
- Debugged application issues and followed clean coding and basic software development practices.

Education

College Of Applied Science(IHRD) –University of Calicut August 2022 – March 2025
BSc Computer Science *Vattamkulam, India*

Certifications

- NACTET - Python Full Stack Development(Nov 2025)
- Python Full Stack Development Internship(Dec 2025)
